Dear Parents and Teachers, dear Students,

The three Project Days during last week have brought us astounding results with new experiences. The Primary School students learned about traffic safety (www.dskl.edu.my – Aktuelles), the pantomime-participants improved their speechless communication, the musical instruments-constructors enhanced their technical and physical skills, the computer programmers strengthened their computer skills, the dancers, cooks, artists, athletes and “Rock’n Roll Girls” refined their respective skills and experiences.

As a school principal, I enjoyed watching the performances and workshops and the highly motivated and enthusiastic students and teachers.

Foundation of a School Company

During the GK-Economics & Law classes, year 10 students will be carrying out a long-term school project: the formation of the school company “**special & spicy designs – Students’ Company**”. The student enterprise will market arts and crafts produced by DSKL students. More information will be available on the DSKL-Homepage in the coming days, and soon on the company’s own website.

Visiting our Neighboring Local School – a Short Report from Year 6 Students

“On Wednesday, 05/10/2011, Year 6 students visited our nearby local school Sekolah Rendah Sri Petaling. A great experience! We were welcomed with a traditional dance and played football and traditional Malaysian games. Before our departure, the students had exchanged addresses. We will definitely invite our neighboring school for a friendly exchange visit in return in the near future.”

Unfortunately, Mrs. Åsmus the current acting principal of the Kindergarten is leaving us at the end of October, 2011. The Human Resources Committee has therefore intensively been searching for a successor, and the contract with a qualified principal with international experience is ready for signing. Meanwhile, part of the organizational matters will be managed by the school’s administration.
